

JUNE 2018

Donation Amount: PHP 70,000

For the month of June our donation is being utilised to help children who were formally served under the Children of Cebu Foundation Inc. street education program, and are now of high school age. A great number of these kids and their families live in the streets, many in public cemeteries!

Street education classes give kids a basic education, but the foundation doesn't have the resources to continue once the kids reach secondary education age (the school year in Cebu is from August to May). The foundation has identified 40 kids who are putting in good effort, and desire the opportunity to continue in secondary education. Although there are free public schools in Cebu, students still need to be able to afford the cost of uniforms, school supplies, a school contribution payment and costs of various school projects throughout the year.

Our donation for the month of June is enough to assist these 40 kids through another whole year of schooling and continue to give them an opportunity to better their lot in life.

The Children of Cebu Foundation (CCF)
